"Two heads are better than one, I always say!"

Right Guide

This column is designated to give official VA answers to veterans' readjustment problems. Send questions to RIGHT GUIDE, 1380 Sepulveda Blvd., Los Angeles 25, California.

Body, mind and soul.
Vitality allied with the physical rehabilitation of sick and disabled veterans in VA hospitals is a very much enlarged program to minister to their spiritual needs.

When General Omar N. Bradley outlined his program for the physical rehabilitation and social readjustments of hospitalized veterans he placed a new emphasis on their mental and spiritual needs as a coordinated part of his program.

High school, college, scientific and technical training was brought into VA hospitals. As a consequence many veterans have finished high school, learned new trades, advanced in professional and technical subjects while patients. Their minds were improved while their bodies grew strong.

At the close of the fiscal year 1945 there were but 11 full-time chaplains in all the VA hospitals in the United States. Today there are 203. In other words, there are three more full-time chaplains in the three VA hospitals in the Los Angeles area than there were in all VA hospitals in the United States at the close of the fiscal year 1945.

Ten chaplains are assigned to the 6,450 patients in the VA Center, Wilshire and Sawtelle boulevards; three to Birmingham VA hospital, Van Nuys, and one to San Fernando hospital. An appropriate denominational balance is maintained by having chaplains appointed from various churches. In these three institutions there are one Jewish, nine Protestants and four Catholic chaplains. All are veterans themselves and know the veteran's viewpoint through their own experience.

The duties of VA chaplains are many and varied. A summary of the figures General Bradley submitted in his annual report to Congress will show the new emphasis placed on helping veterans with their spiritual problems.

Chaplains preached 4,932 sermons during the 1946 fiscal year with 329,418 hospitalized veterans in attendance. They

Baby Care Film To Be Shown To Torrance Mothers

Supplementing the demonstration to be given on bathing the baby the film, "Care of the Newborn Baby," will be shown at the expectant mothers' class in the Torrance health center, 2300 Carson avenue, April 17 at 1:30 o'clock, Miss Lucille Ploger, public health nurse-instructor, has announced.

The Walt Disney technicolor film on immunization, "Defense Against Invasion," will also be shown by Ralph Herold, technician for the Los Angeles county health department.

Each class is complete in itself and registration for entrance may be made at any time, the instructor said. There is no charge as this is a service of the county health department, with many private physicians suggesting that their prenatal patients attend.

SUMMER FACULTY
More than 100 visiting faculty members will supplement the regular University of California staff for summer sessions on both the Berkeley and Los Angeles campuses.

made 768,450 bedside visitations. They helped 1,913 families of veterans with welfare problems, baptized 163, married 176, held communion for 38,213, confessions for 17,607 and funeral services for 1,021.

However, as Joseph D. Ewers, chaplain at the VA Sawtelle Center since 1935 said recently, "our work is not a matter of statistics. It is a matter of building, or rebuilding a faith, a hope in the individual. At no time in the history of medical science has there been a greater realization of the vital connection, or unity, between the body, mind and soul. If we can help a sick or disabled veteran find a peace of mind which comes only to those who live in harmony with the laws of God, we are helping the doctors cure his body and mind."
